

Fox Township Meeting Minutes for Tuesday March 7, 2023

Members Present: Rob, Tom, Roxanne, Lori, Ken

Barry Moyer was present and asked the board if the park would be interested in if his church group did some wood working projects with kids at the park this summer. They had made bird feeders and toolboxes and were interested in continuing in some way with these projects. After some discussion the board liked the idea if they did it and Barry was going to check with other church members to see if there was enough help to move forward. Will get back with the rec board at their May meeting.

Minutes were approved from the February meeting

Kayla Challingsworth was present as she is our new park director who was hired in Cathy Zimmermans place as she retired. Kayla gave the board some information on her background and what she hoped to see for the summer.

Tom gave the board an update on what he wants to do with the little league fields to get them into shape for the upcoming season. Upon his

recommendation he wants to explore having a company come in who does fields and have them get them back into top condition. The board thought this was a good idea to look into this option.

Tom and Rob visited Memorial Park in St. Mary's to look at the batting cage that had been recently installed there.

Nothing new from the concession stand committee

Rob had walked the hiking trail at the park and several areas will need some work as the weather gets nice

Will set park tour dates as the weather allows

No rentals for approval

No further business so the meeting was adjourned
